Assignment 2

Data Analysis Task

Learners must:

- ✓Analyse the dataset
- ✓Identify the top selling products
- ✓Identify the best performing region
- ✓Create one chart

Questions to Answer

1. What is the total revenue generated from the dataset?
2. Which product is the **top selling product** based on total units sold?
3. Which product generates the **highest revenue**?
4. Which region is the **best performing region** based on revenue?
5. Who is the **top performing salesperson/manager** (if applicable)?
6. What trend do you observe from the data over time?
7. Provide **two business insights** from your analysis.
